### SUM TOTAL OF EXPENDITUR S

Almost Two and a Half Millions Spent by Legislature.

AGGREGATE MAY BE GREATLY ENHANCED

Governor Still Has Many Bills Carrying Appropriations to Pass Upon and These Will Swell the Total.

LINCOLN, April 12 .- (Special.) - The exact amount of money appropriated by the legislature has not yet been accurately determined; but the sums set apart for the maintenance of the state government and institutions have been ascertained, together with the sums of the deficiency claims and other items of miscellaneous indebtedness. But the amount taken out of the state treasury for private relief bills, for reimbursement of several counties for expenses incurred in criminal trials, etc., has not yet been itemized and cannot be until the numerous bills yet in the hands of Governor Holcomb are passed upon

The total sum appropriated for the payment of salaries, deficiencies, maintenance of state institutions, new buildings, etc., amounts to \$2,352,209. Two years ago the legislature appropriated for all purposes, \$2,784,684, a difference in favor of the secsion which adjourned Saturday of \$432,475.
The latter amount, however, will be considerably reduced by a large number of private relief bills which must be added to he sam total of the funds appropriated.

It is generally asserted that the appropria tions made for the support of many of the state institutions are too low, and that the next legislature will have to make up a large delicioney; but the argument was freely used by both senators and representatives that every legislature is compelled to face a deficiency and that the one which will meet deficiency and that the one which will meet

#### Embalming Bill, Reported Approved Was Not Even Passed

LINCOLN, April 12.—(Special.)—In the lisof bills handed to the newspapers Saturday as having been signed by the governor was included house roll No. 74, the embalming bill. This was a mistake. It should have been senate file No. 74, a bill for the prevention of cruelty to children. The embalming bill failed to pass.

The state treasurer has made another call general fund warrants, amounting to 00, to come in April 19.

The labor commissioner is preparing blanks to send out to the various county clerks, to be by them distributed among the as assors, under the provisions of house roll o. 277. This bill provides that the assesshall gather the industrial statistics of the county clerks, who report the same to er. The governor has not yet signed the bill.

Friend's Assessed Valuation.

FRIEND, Neb., April 12.—(Special.)—There appears to be trouble ahead regarding the corporate limits of the city of Friend. Certain additions and railroad right of way were taken into the corporation by city ordinance to vote \$18,000 bonds for city water works and there the matter stopped; nothing was placed on record. The water works bonds were voted by voters tiving mainly outside orporation, and a great part of the water works was laid outside and are now outside works was faid outside and are now outside the corporate limits of the city. There arises a question regarding these bonds or the juris-diction of the city, or as to whether a single election during the past twelve or fourteen years has been a legal one or not. This appears to have arisen over a neglect to place the corporation on record in the office of the county clerk.

At the election for this purpose, held on last Wednesday, this voting precinct east 124 votes, all but three of which were for a new director and against the ditch. The old director in this district was re-elected by twenty-nine majority, and in the eastern district, which includes the city of O'Neill, the old director was elected by four majority, and in the middle district there was no candidate against the old director, and this is what your correspondent calls re-electing the old officers by "flatter-

ing majorities. As this was simply a test as to whether we should proceed with the survey until the present levy is exhausted or stop the survey , uncompleted, it was not a fair test of the strength of the opposition to the big ditch" scheme. The truth is, the cal farmers are very largely opposed to the 'big ditch' scheme. scheme, as shown by the large majorities against it in the rural voting precincts, and had none but farmers voted, the "plan" and the "old officers" would have been snowed under so deeply, that it is doubtful whether Gabriel's trumpet would have been able to

arouse them. It is a noticeable fact, and one of comr bservation, that the farmers who have succeeded and intend to remain and make the scheme, while those who have failed and have their farms mortgaged for all they are worth, are in favor of the scheme; and these, combined with the city mouth farmers and a few adventurers constitute al-most the sum total of those who are favoring this scheme of irrigation.

The opposition is based on the ground that the "plan" is bound to prove too uncertain and costly under present prices for farm products; and, to most of them, this is so apparent as to need no survey for its demon stration, and they say it only remains to be seen whether those who desire to remain and make homes here for their families shall L. Queer Action of Menraguan Official

at Bluefields. WASHINGTON, April 12.- The attention the State department has been drawn to the peculiar official conduct of Colonel Torres, the acting intendent general of Bluefields, toward American merchants there, and his discrimination against them probably will be made the subject of a protest by our government. From the account of the matter which reaches the State department through Consul O'Hara at San Juan del Norte, the Nicaraguan government decreed that lard should be admitted duty free for six months. This decree was to become effective on pronulgation, which was November 12 last, in Bluefields, and the merchants there sold and ordered their goods on that assumption. But upon liquidating their entries they found the duty added, and were told the decree would not become effective until December In answer to their representations they were promised, as a set off by Colonel Torres,

that the operations of the decree would be continued during May of this year, so as to give them the full six months exemption and avoid a refund of the duty for November. The merchants accepted this compromise in good faith, but December 12 Colonel Torres took a new stand, and holding that the decree applied only to Pacific ports, and not to Bluefields, has since collected full duty on all lard imported from the United States. Owing to the rise in the river Hardwood lake is again flooded. Large chunks of the bank all glong the river front have fallen off and been washed down stream. Danger point was reached at the mouth of the sewer yesterday afternoon when the portion nearest the river was undermined and broken. This sewer is the outlet for the waste water from the packing houses and stock yards his left side, which pains him greatly when and the large grease catching plant there is moving about. The force of the fall can be in danger of being flooded. Workmen were judged from the fact that a silver match safe sent down last night to repair the break which Mr. Bryan carried in his vest pocket in the sewer and to remove such portions was crushed completely out of shape by the of the plant as are in danger.

The ferryboat "W. J. Bryan," owned by the Bellevue Transfer company, broke from its moorings yesterday manning and went sailing down the river. The boat was built last summer and was used in transferring live stock and passengers from Iowa to this side of the river. Scott King and other owners of the craft were preparing to bring the boat up to the foot of N street soon and give the city officials a banquet and boat ride. The banquet has been postponed until the boat is found.
